WASTEWATER MANAGEMENT BIOPRODUCTS & SOLUTIONS

Changing the way Industry Treats wastewater

PRODUCT	DESCRIPTION	BENEFITS	DOSAGE
SUPER CH4 	Anaerobic Methane-Boosting Bioculture for UASB, CSTR, EGSB	Boosts COD reduction & methane production, recovers & commissions biogas digesters, reduces alkalinity demand	3 grams per KL per day
COW DUNG EXTRACT 	Nutrients for Anaerobic and Aerobic Processes	Perfect blend of proteins & enzymes, complements missing nutrition to improve digester and secondary performance	4-6 grams per KL per day
SUPER 24 	STP/ETP bioculture for Activated Sludge Process (Powder)	Maximizes COD and BOD reduction, Improves settle ability of activated sludge	3 grams per KL per day
OXYSUPER 	Dissolved Oxygen Booster (Powder)	Reduces COD, BOD, TSS, Maintains clarity in secondary clarifier, Handles shock loads and complex effluent, Eliminates odors	3 grams per KL per day
BIOFRESH-W 	Bioenzymatic and Microbial Odor Eliminator (Powder)	Bioculture for long-term odor elimination, eliminates sulfide & ammonia in wastewater, ponds, septic tanks	3 grams per KL per day
BIOFRESH CONCENTRATE 	Bioenzymatic Odor Eliminator (1000X concentrate)	For daily odor elimination in large-scale applications like landfills and garbage dumps	Dilute 1 part with 1000 parts water and spray
BIOFRESH RTU 	Bioenzymatic Odor Eliminator (Ready-to-use)	Quick odor eliminator for washrooms, hotels, hospitals	Just single spray on the source of odor
SUPER SETTLER 	100% Organic Bioflocculant and Coagulant	Enhances TSS reduction in secondary clarifiers, 100% biodegradable, Improves flocculation of MLSS	5ml per KL ongoing basis
SUPERFLOW (LIQUID) 	Fat, Oil, and Grease Digestion Bioculture	Complete control of grease odors, prevents kitchen downtime due to clogged drains, easy grease trap and drain line management, eliminates foaming problems in STP/ETPs due to FOG	5ml per KL ongoing basis
SUPERFLOW (POWDER) 	Fat, Oil, and Grease Digestion Bioculture	Complete control of grease odors, prevents kitchen downtime due to clogged drains, easy grease trap and drain line management, eliminates foaming problems in STP/ETPs due to FOG	2grams per KL in drain lines of grease traps daily

PRODUCT	DESCRIPTION	BENEFITS	DOSAGE
SUPER FOAM NOT 	Defoaming Agent	Perfect antidote for surfactant foam, quick action at low dosages	10ml per KL
BIO-DRAINX 	Bioenzymatic Drain Cleaner	Bioenzymatic drain cleaner for all kinds of drains	200-400 grams per drain
SUPER NUTRIENTS 	Macro and Micronutrients for ETPs	UREA/DAP replacement, Eliminates filamentous foam, Maximizes COD reduction	4-6 grams per KL
SUPER AMMONIL 	Ammoniacal Nitrogen/Ammonia Reducing Bioculture	Effectively reduces ammoniacal nitrogen, Restores nitrification in case of upsets	4-6 ml per KL
SUPER GUARD 	Chlorine dioxide based disinfectant	Eliminates odors, disinfects very effectively in single application	1 kg disinfects 125 KL
SUPER FLOC CATIONIC 	Cationic Polyelectrolyte	Excellent for dewatering applications	Jar test required
SUPER FLOC ANIONIC 	Anionic Polyelectrolyte	Excellent for primary flocculation at low dosages	Jar test required
SUPER MSW 365 	Municipal Solid Waste Composting Culture	Daily use odor elimination and composting culture for solid waste management facilities	1kg covers 2-4 MT of Sold waste
KWM 	Kitchen Waste Management Bioculture	Kitchen waste management odor eliminator and composting culture	1kg composts 2 MT
 SUPER NANO BUBBLE MACHINE	Nano Bubble Generating Machine	Revolutionary water treatment capabilities achieved by nano bubble generation from air, ozone, hydrogen, and all kinds of gases	Requires our expert guidance
EXPERT CONSULTING SERVICES 	Wastewater Performance Improvement Services	Wastewater troubleshooting, guidance in primary, secondary, and tertiary treatment	Case to case basis
